

VIP Shield™: Your Title 31 Compliance Solution

System Customization

Customized Integration

90% of MTL transactions pulled automatically.

Configurable

Customizable transaction verbiage, color coding, and alerts.

Operational Efficiency

Position Driven

Enables only the features users need to complete job functions.

Instant Messaging

Send messages to all open stations in real-time.

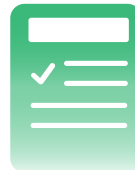

Security & Compliance

TinCheck

Ensures patron identity by matching with 46 watch lists.

Incident Reporting

Initiate and track incident reports from any station.

Advanced Reporting

SAR Analytics

Access Chip Walk and Minimal Gaming reports in real-time.

Reports

Create custom reports by section to isolate risk potential.

Reduce Your Risk of Costly Penalties

- Don't let manual compliance processes jeopardize your business
- VIP Shield automates Anti-Money Laundering and IRS reporting processes, including:
 - Multiple Transaction Log (MTL)
 - Negotiable Instrument Log (NIL)
 - Monetary Instrument Log (MIL)
 - Chip log transactions
 - Suspicious Activity Reporting (SAR)
- Accessible directly through our VIP LightSpeed® platform
- VIP Shield™ actions and posts MTL, NIL, and chip log entries as needed
- Executes SAR and incident reporting as required
- Easy to use with a minimal learning curve for cage staff
