Pay for your play the secure VIP Way

Because 10 percent of guests make up 80 percent of casino revenue, easily enabling VIP play is essential to success. VIP Preferred®, our e-check network, is available in more than 450 North American casinos through our VIP LightSpeed® platform and has millions of registered users. The process is fully electronic and requires no complex guest signup, and guest accounts can be used in the casino or online.

The industry's highest limits

Because we're part of Pavilion Payments, one of the world's leading payment technology companies, we understand the unique financial profiles of your VIP guests like no other partner can. With VIP Preferred, your guests can receive revolving 7-day limits of up to \$50,000 instantly and can store up to four checking accounts. All check transactions are fully guaranteed by Pavilion Payments.

Play today, settle later.

Our delayed settlement casino e-check offering, Choice4™, enables our clients to put more cash in play by extending e-check settlement to 7, 14, 21 or 28 days. Available where regulations allow, the process is as simple, with funds drawn from the guest's account at the agreed upon date.

Payroll check guarantee

After a simple one-time enrollment process, patrons can cash their payroll, tax return or U.S. government checks at participating locations. Properties are able to cash patron checks confidently knowing that Pavilion Payments is assuming the risk. Simply deposit the checks normally and submit any returned items to Pavilion Payments for reimbursement. This service is included in VIP LightSpeed® and no additional equipment is needed.
