YOU ARE PART OF THE FUTURE

CASHLESS PLAY IS HERE...

Cashless Gaming is here!

Global Payments is so excited to bring the future of cashless gaming into the palm of your hand! VIP Mobility is the most advanced, safe, and sophisticated cashless gaming system in the world.

VIP MOBILITY

VIP Mobility is a free app for your smartphone which can transfer funds directly from the gaming device to and from your bank. VIP Mobility provides numerous layers of security and reassurance with electronic cash access that eliminates the need for carrying cash, numerous TITO tickets or even a wallet or purse.

Gone are the days of long lines at cashier cages or having to leave your lucky slot machine or favorite table game to get cash again!

This revolutionary application and the technology installed across the casino floor will enable reduced lines and provide a safer and more efficient gaming experience. As we return back to a sense of normalcy during COVID-19, we believe that protecting your health is of paramount importance.

The use of VIP Mobility will provide safer gaming options; eliminating high touch risk factors associated with handling cash bills and using ATMs; as well as limiting face-to-face interactions with Team Members.

We understand that some Guests may feel trepidation whenever introduced to new technology; that's why our Team Members are eager to show you how VIP Mobility can offer an easier way to play your favorite games.

What is VIP Mobility?

VIP Mobility is an easy-to-use cashless play mobile app that allows you to securely fund your favorite game so you don't lose your seat or have to wait in line at the cage or kiosk—ever again!
